The Voi Guest House

WILDLIFE AROUND THE CORNER

Tsavu East National Park is nearby, which makes The Voi Guest House the perfect place to experience Kenya's local animals and nature. Tsavu is well known for its elephants. In addition to elephants, you will also find around 60 different species of mammal such as giraffes, leopards, zebras, buffaloes, and a variety of antelope.

THE GUEST HOUSE is run by the Voi Lutheran Mission, a part of the Kenya Evangelical Lutheran Church. All profits from the guest house are used to fund church work with local orphaned children. The children live with caregivers in Voi and surrounding areas.

The number of children has increased continuously from its beginning in 2004 and now the program includes about 50 vulnerable children aged 4-20 years. They are given assistance with school costs and other daily needs such as food, clothing, medicine and even housing if needed.

The guest house is also a natural gathering place for education and recreation for the children and their caregivers.

VOI LUTHERAN GUEST HOUSE

www.voiguesthouse.com

Welcome to Voi!

VOI LUTHERAN GUEST HOUSE was opened in November 2013 with 44 beds. It sits in the secluded area on Bogesunds farm a few kilometers away from the city's hustle and bustle along the Nairobi Mombasa highway.

The ground floor has eight double rooms. These rooms are self contained with hot showers, which is produced by the solar panels on the roof. The first floor has two double rooms and four family rooms. These rooms are not self contained but guests can use the general ladies/gents washroom on ground floor as they have a hot showers area. On the same first floor is also a conference hall with space for about 50 people.

The kitchen and office are just a short distance away, as is the dining room with open walls and a traditional African roof. We supply breakfast, lunch and dinner.

The facility is well suited for businesses and organizations wishing to arrange seminars, workshops, etc. With or without meals.

The guest house is very suitable also for other occasions, like large garden weddings or smaller gatherings for groups of various kinds.

It is also located near one of Kenya's renowned national parks which is Tsavo East. It is just 10-15 minutes by car from the guesthouse to the main park entrance.

Knowledgeable staff with good contacts in the local community can assist with bookings of safaris in Tsavo National Park and other area attractions, or perhaps a visit to a Maasai village near Voi.

The guest house rises above the countryside away from the bustling city. The double rooms are located on the first level. The dorm rooms and a large conference hall are located on the upper level, which is useful for both tourists and groups looking for a meeting place.

The rooms are well ventilated and have high ceilings for optimum comfort. One of the double rooms is decorated in classic Maasai style.

All double rooms on the first level include spacious showers and toilets. All utilities are in excellent condition and include tiled walls. Hot water comes from the solar panels on the roof.
